Applied automatically after 28 days of a claim

Why British Friendly?

Simple. There's no point in having Income Protection if it doesn't pay out when your clients need it most.

At British Friendly, we offer a range of Income Protection cover including one long term and two short term products to suit the individual needs of your clients. Our main motivation is to pay our members claims and provide cover for more people - even those who are typically hard to insure.

As a mutual insurer, we manage our risk through reviewable premiums and sharing the load equally amongst our members. That's how we've consistently paid out over 96% of all our IP claims for the past 5 years. And that's how we'll continue making high claims payments to our members.

We strive to be as inclusive as possible and do our best to help as many people as we can. We don't have any standard policy exclusions and rather than immediately rejecting unusual cases we try to find ways to provide cover for as many people as possible.

At British Friendly, our number 1 priority is paying claims and it's our claims performance that underpins how we underwrite all of our applications. Paying claims isn't just a headline promise, but a way our business is organised and operates to deliver and has done for over 100 years.

Give your clients peace of mind knowing that with British Friendly, Income Protection is better when we're all in it together.
